

OPTIMIZER-N4 CERTIFICATION WITH OPTIMIZER ADVANCED CONTROLLER INTRODUCTION

OCTOBER 12-16, 2026
NASHVILLE, TN

Course Number - TRN-TCP-ASD

Description: The goal of the 5-day Niagara Certification Technical Training course is to educate students to a basic level of technical expertise necessary to effectively and efficiently design, engineer and program projects using the Niagara Framework. The Course is designed around using the Honeywell Optimizer Advanced controller. A certification exam is given at the end of the course. Students who pass the exam at the end of the class will receive a Certificate of Achievement issued by Tridium testifying to their ability and a Certificate of Completion for Introduction to Optimizer Advanced controller.

Audience: Class is designed for new students seeking Tridium Niagara Certification and Introduction to the Honeywell Optimizer Advanced controller.

Prerequisites: None

Certification: YES, N4 Certification from [Tridium University](#), upon successfully passing the exam.

Cancellation Policy:

*If a student cancels **30 days or more** before the class date, **no fees are due.***

*If a student cancels **within 30 days** of the class date, **tuition is due in full.***

Honeywell Optimizer Advanced - Take building control to the next level

- Conforms to BACnet Standard 135 protocol version 1.15 (ISO 16484-5)
- Multi-color LEDs to show the operational status of the isolated RS485 communications, HMI device, Ethernet connection, and Service state of the controller
- Multiple Ethernet connector options
- RJ11 interface to connect with an HMI device for field operations
- All RS485 channels support PanelBus, BACnet™ MS/TP, Modbus, and M-Bus
- Touchflake to support RS485 Snapon I/O devices
- Built-in advanced diagnostics software facilitating troubleshooting for IP and MSTP devices
- Supports DHCP (Automatic IP address assignment)
- Supports Daisy-chain connection
